EXPERIENCE

BME Solar Boat Team

Embedded Systems Developer

Budapest, HU
Feb 2026 – Present

- Engineered a safety-critical C application for ESP32, ensuring 100% throttle signal reliability.
- Implemented bitmask-based error detection and managed FreeRTOS tasks at 50Hz for stability.
- Utilized Watchdog Timers (WDT) and scaled ADC sensor inputs for high-precision telemetry.

CERN

Research Fellow (LHCb)

Remote / Geneva, CH
Nov 2025 – Jan 2026

- Improved muon track reconstruction precision using Chi-squared statistical tests in C++.
- Automated C++ dependency management in Linux.
- Validated reconstruction algorithms against large-scale experimental data with international teams.

LEADERSHIP & AWARDS

CASSINI Hackathon: EU Space for Water

Lead - zakaz somsa team

Budapest, HU
Apr 2026

- Developed a flood-risk monitoring system using ESA Sentinel-1 satellite data and Python.
- Integrated GeoPandas and Rasterio to automate SAR imagery processing and visualisation.

FLEX Program (U.S. Dept. of State)

Exchange student at Prior Lake High School

Minnesota, USA
Sep 2023 – Mar 2024

- Was part of the International Student's Club; completed 50+ hours of community service at Catholic Charities.

EDUCATION

Eötvös Loránd University (ELTE)

BSc in Computer Science

Budapest, HU
Sep 2025 – Jun 2028

- GPA: 4.6 / 5.0; member of the Central Asian Society.

21 School

Software Engineering track (C & AI/ML)

Tashkent, UZ
Feb – Aug 2025

- Completed intensive 4-week C Piscine and a Python-based Machine Learning curriculum.

EXTRACURRICULARS

European Young Engineers

Coordinator

Remote
Mar 2026 – Present

- Analysing AI and climate policy intersection at SB64; managing external relations in HU, AT, and SK regions.

Yordam+

Project co-lead

Tashkent, UZ
Apr 2025 – Sep 2025

- Organised several first aid trainings for youth in collaboration with the Red Crescent Uzbekistan.

FIRST Robotics Uzbekistan

Mentor

Tashkent, UZ
Jan 2025 – Jun 2025

- Guided the first FTC teams #25444 and #28865 in the region, getting funding and space for 15+ students.

FRC team KING TeC #2169

Mechanical & drive teams member

Tashkent, UZ
Jan 2024 – Mar 2024

- Winner of the 10,000 Lakes Regional.

SKILLS

Programming: C & C++; Java: Springboot; Python: pandas & geopandas; Bash; Git; Docker; Kubernetes; AWS services.

Tech: FreeRTOS; ESP32; CAN, UART, TWAI, ADC; computer networking.

Soft: Cross-functional collaboration, peer-mentoring, analytical reasoning, project ownership.
